BUTTER FATS

We use our **BRITISH FARM ASSURED FRESH CREAM** to produce a **VARIETY OF BUTTER FAT PRODUCTS** to meet all of your product and processing needs.

BUTTER

Churned from fresh cream to make either unsalted or salted butter. An essential ingredient in many sweet and savoury products.

CONCENTRATED BUTTER (BUTTER OIL)

Made using a combination of either sweet or whey cream and butter, widely used in food production.

ANHYDROUS MILK FAT (AMF)

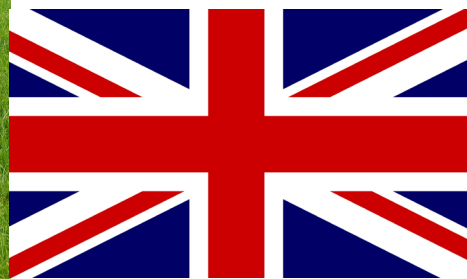

Made from fresh cream and is 99.8% butter fat with no additives. AMF can be used to make chocolate and ice cream amongst other products.

GHEE

Provides a rich buttery flavour and is traditionally used in many Asian recipes.
